

# What Leaders Say About Working With Mike Breeze

“Mike didn’t just deliver a keynote — he reframed how we think about leadership conversations. He helped our team recognize the patterns we were unintentionally reinforcing and gave us a practical way to correct them. The shift was immediate.”

— **Korre Goldsmith**  
**Duncan Public Schools**

“The way Mike explained that we speak with words but think in pictures completely changed how I approach communication. His insight about silence not being neutral was especially powerful — it made me realize how often what we don’t say shapes outcomes just as much as what we do.”

— **Kristie Robins,**  
**4H Sponsor/Advisor**

“In 37 years in education, I’ve attended more in-service sessions than I can count. Mike’s stood apart. He didn’t offer theory — he revealed how our everyday communication was shaping expectations and behavior. I left thinking differently about leadership.”

— **Karla Murphy**  
**Montague ISD**

“After Mike worked with our teachers and staff, we started noticing how small leadership moments were shaping our culture. It wasn’t about motivation — it was about awareness. The conversations in our building became more focused and more intentional almost immediately.”

— **Jerry Garrett**  
**Velma-Alma Schools**

“Mike’s message exposed how easily we reinforce assumptions without realizing it. His explanation of how we validate what we already believe was eye-opening and directly applicable to leadership. It sharpened how I think about communication — both with others and with myself.”

— **Dr. Karen Koepp**
